

PARKING MANAGEMENT DONE ONLINE

INTRODUCTION

Exceljuta Parking Management - India's first parking network, an online parking portal connecting vehicle owners, parking providers and retail outlets with parking information.

Exceljuta Parking Management was designed, modeled and developed in USA for addressing parking issues around the world. Our patent pending solution was launched in 2011, after extensive survey in 8 major Indian cities.

Our smart parking solutions managed online; provides real - time parking data visibility which aids in efficient mobility. The innovative products and solutions improve vehicular flow management in your premises. This adds value to your overall parking management process with tangible time and cost-savings. These solutions are in demand widely in Malls, Shopping Centers, Multiplexes, Corporate and residential parks and on regular street parking.

Our value-added marketing services along with parking solutions are any retail outlet's delight. The solutions we offer ranges from basic advertisement listing to specific delivery of offers and deals, with this we can safely assume that our landmark's foot-falls are bound to increase.
